AN IMPORTANT WORK

READY IN AUGUST

A Text-Book of Physiology

By **ROBERT TIGERSTEDT**

Professor of Physiology in the University of Helsingfors, Finland

Authorized translation from the Third German Edition by J. R. Murlin, Ph.D.,
Instructor of Physiology, Bellevue Medical College, New York City.

Introduction to the American Edition by Professor
Graham Lusk, Ph.D., F.R.S. Edin.

An Invaluable Text-Book and an Essential Addition to All Medical Libraries

D. APPLETON & COMPANY, Publishers, NEW YORK

Cooper Medical College of San Francisco

SEE PAGE 29

Sick-rooms in Summer

can be kept cool and odorless by the following practical method:—

A towel or sheet, moistened with Platt's Chlorides diluted with ten parts of water, if frequently wafted about the sick-room and then hung up, will cool and purify the air by liquid evaporation and chemical absorption.

Platt's Chlorides, ***The True Disinfectant.***

An odorless, colorless liquid; powerful, safe, and cheap; sold in quart bottles only, by druggists everywhere; prepared only by Henry B. Platt, Platt Street, New York.

NEW BOOKS

POSEY & SPILLER

The Diagnostic Relations Between the Eye and Nervous System

EDITED BY WM. CAMPBELL POSEY
Professor of Ophthalmology at the Philadelphia Polyclinic,

AND
WM. G. SPILLER,
Professor of Neuro-Pathology at the University of Pennsylvania

Octavo. 800 pages. Thoroughly illustrated. Cloth \$6.00
With 22 chapters by the leading specialists of the U. S.

By opening up a new field for the general practitioner, and enabling him to become acquainted with symptoms hitherto almost entirely unknown and unrecognized by him, though they are frequently first to appear in many cases of spinal and cerebral involvement, it is thought that this work will aid greatly in the advance of medical science, as, in addition to the above, it makes ophthalmologists and neurologists better acquainted with the subjects of which they treat.

KREHL'S

PRINCIPLES OF CLINICAL PATHOLOGY

BY LUDOLF KREHL

TRANSLATED FROM THE THIRD GERMAN EDITION AND
EDITED BY

A. W. HEWLETT, M.D.

Instructor in Clinical Medicine at the Cooper Medical College, San Francisco, Cal.

With an introduction by Wm. Osler

Octavo. 504 pages. Illustrated. Cloth \$5.00

Disease is here treated as a perversion of physiological function. To the physician, this point of view is of fundamental importance, for he is dealing essentially with abnormalities of function.

The work is recognized as authoritative in Germany and it has been translated into at least five other languages. To the American profession, no other introduction is necessary than that given to it by Dr. William Osler.

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

Liquid Peptonoids

possesses the following positive and distinct advantages as a food for the sick:

Its Proteid content, (amounting to almost 6%) consists of the peptones of the three standard foods, beef, milk and wheat.

Notwithstanding the presence of beef, in predigested form, Liquid Peptonoids is entirely devoid of "beefy" taste or odor; its palatability is unquestioned.

Its Carbohydrate content, (amounting to almost 13%) exists principally as dextrose and lactose, with but little cane sugar.

Its Peptogenic power, (due to the contained peptones and dextrose) aids in the digestion of other foods, and thus renders Liquid Peptonoids peculiarly serviceable as an auxiliary food in convalescence.

Liquid Peptonoids does not interfere with any desired medication and can be administered in various ways, according to the desire of the patient.

Complete analysis on request.

Dose—One to two tablespoonfuls 3 to 6 times a day. Children in proportion.

THE ARLINGTON CHEMICAL CO.,
Yonkers, N. Y.

Proteids, 5.07 per cent - Carbohydrates, Ash, etc., 13.45 per cent; Alcohol (by weight) 13.99 per cent
—Analysis, Fro.: Frank T. Green, Assoc. Prof. Physiol. Chem., U. of Cal.

LISTERINE

DERMATIC SOAP

A saponaceous detergent for use in the antiseptic treatment of diseases of the skin

Listerine Dermatic Soap contains the essential antiseptic constituents of eucalyptus (1%), mentha, gaultheria and thyme (each $\frac{1}{2}\%$). The quality of excellence of the soap stock (which contains no animal fats, and none but the very best vegetable oils) employed as the vehicle for this medication, will be readily apparent when used upon the most delicate skin, and upon the scalp. Before the soap is "milled" and pressed into cakes it is *super-fatted* by the addition of an emollient oil, and the smooth, elastic condition of the skin secured by using Listerine Dermatic Soap is largely due to the presence of this ingredient. The antiseptic constituents are added to the soap after it has received its surplus of unsaponified emollient oil, thereby retaining their peculiar antiseptic virtues and fragrance.

A sample of Listerine Dermatic Soap may be had upon application to the manufacturers—

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

That plastic dressings possess marked therapeutic value is evident from their increasing use in hospitals and by the medical profession. Believing that their valuable properties are enhanced by the use of a superior base, we have always made Antithermoline from the finest quality of imported Kaolin, and clinical evidence has justified us in so doing.

Antithermoline

(G. W. CARNRICK)

is a most effective application in all conditions of irritation, congestion and inflammation; it contains no poisonous ingredients (hence may be applied to raw surfaces without discomfort), is not greasy, is miscible in water, is antiseptic and mildly astringent. It forms an elastic covering, preventing access of air and bacteria, and is therefore an ideal dressing for wounds, burns, ulcers, etc.

G. W. CARNRICK CO.

38 Sullivan Street

NEW YORK

FORMULA

Each pound of Antithermoline contains 4,000 grs. of imported kaolin washed and purified, 14 grs. Boracic acid, 14 grs. oil of Eucalyptus Menthol and Thymol, combined; 4 9-10 fluid oz. glycerine.

INDICATIONS

Burns

Bee Stings

Bites of Poisonous Insects

Poisoned Wounds

Eczema

Pruritus

Intertigo

Congestion of Organs and tissues of the Pelvis

Pneumonia and all Inflammatory conditions of Respiratory Tract.

ANTITHERMOLINE

is for sale by the Drug Trade only in 10 oz. 50c. size. 1 1/4 lb. \$1.00 size. Also in 5, 10 and 25 lb. for hospital use. A package sent to any physician on request.

CUTTER'S DIPHTHERIA ANTITOXIN

(U. S. P.) IN NEW PACKAGE.

AS IMPROVED, CUTTER'S PISTON SYRINGE CONTAINER

is the most convenient and dependable one on the market, and a sample package (of Serum), will be sent to any physician on request.

Piston Slides Easily, yet Does Not Permit Escape of Serum Back of Plunger

"Therapeutically your Serum is the peer of any," recently wrote a well known physician who has used hundreds of thousands units of our Antitoxin in the last year, and now the package is mechanically perfect.

AS A "TRUST BUSTING" PACIFIC COAST PRODUCT

that has already caused a break in the ranks of the combine, Cutter's Antitoxin certainly deserves your active support. It is still the lowest priced of any, and is exchangeable for fresh after expiration of date on package. Please ask your druggist to carry stock, and insist on being supplied with our product.

TANPHENYFORM

WARNER & CO.

KNOWN PREVIOUSLY AS TANFORMAL.

Energetic, Intestinal, Astringent and Antiseptic.

Liberates Tannic Acid, Phenol and Formaldehyde, due to a gradual and continuous chemical reaction, as soon as it comes in contact with the Alkaline intestinal secretions.

CONTROLS the DIARRHEA of TYPHOID FEVER and other infectious diseases and inhibits the development of the micro-organism and astringes the congested and inflamed mucosa, including the infected and ulcerated peyer's patches, thus, it greatly limits the possibility of hemorrhage and perforation.

Does *not* disorder digestion *nor* derange the stomach, is eliminated by the bowels and kidneys.

The following clinical report from a Physician in Kansas illustrates its exceptional Therapeutic value.

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

LACTATION

When the mother must furnish sustenance for her child as well as maintain her own health, her dietary is of extreme importance. After the havoc of confinement which ends a period of hypernutrition now returning suddenly to normal conditions, with sudden lowering of vitality, there is danger, in the process of repair, that the mother may take for her own needs food materials which may produce a quality of milk beyond the capacity of the yet undeveloped digestive function of the baby. It is very important that the nursing mother should have her meals regularly and at more frequent intervals, especially in the early part of lactation, than when she

has ceased to nurse the baby. These additional meals may well consist of milk, cocoa and

EGG-O-SEE

which is an ideal food at this time, as it contains *all* the nutritive principles of the entire wheat berry in a most easily digestible and palatable form. It should, indeed, constitute a part of every meal during the entire period of gestation and lactation. It supplies all the elements necessary to healthy tissue metabolism and growth, and its constant use will tend to induce a good flow of good milk.

EGG-O-SEE is always fresh, crisp, clean—a delicious, appetizing and healthful food for the nursing mother, and subsequently for the child when at the eighth or ninth month an addition to the all-milk diet is advisable. Being partly pre-digested and flaked so that every part of the food is affected by the saliva, EGG-O-SEE does not tax the digestive organs and is readily assimilated.

—*back to nature* for the full value of her best cereal.

Full size package sent to physicians on request.

ALPHOZONE

IN AUTUMNAL INFANTILE DIARRHEA

"Summer diarrhea of infancy" has come to imply the prevalence of infantile intestinal infections during this season exclusively. But it is a matter of clinical observation that the autumnal exacerbations and relapses of infantile diarrhea are often more to be dreaded than the original affections. Dietary indiscretion and the sudden thermal changes of the fall months suffice to establish a fermentative diarrhea in an infant already debilitated by a summer siege of the same disease, or by the more dreadful cholera infantum.

Alphozone, because of its highly potent germicidal property, its ready solubility and its non-irritating effects in solutions such as are used per os or per rectum (1 to 1000 or 1 to 2000), has achieved a prominent place in the therapy of infantile diarrhea and cholera infantum.

In the general fermentative diarrhea of autumnal relapse, Alphozone used by colonic irrigation gives most satisfactory results. A 1 to 1000 water solution of Alphozone, in quantities of one quart, slowly injected through a rectal tube (with the infant's pelvis well elevated) not only deodorizes the fetid intestinal discharge but markedly inhibits the frequency of the diarrheal evacuations by destroying the microorganisms inciting the fermentation in the large intestine. Repeated at suitable intervals and combined with proper dietary restrictions, this treatment will speedily effect a striking improvement.

Being nontoxic yet highly potent, Alphozone is indicated in all conditions where it is possible to bring a germicide in contact with the infected surface. A sample vial of Alphozone Tablets (1 gr.) and scientific literature will be mailed to any physician on request.

The NAUHEIM BATHS

Are Given by Means of the

TRITON Effervescent BATH SALTS

DR. MARY PUTNAM JACOBI (Physician St. Mark's Hospital, N. Y.) writes us:

"I think very highly of the Triton Salts and use them constantly."

DR. SIMON BARUCH (Physician Wright Hospital, N. Y.) writes us:

"I regard the Nauheim System as a permanent improvement in therapeutics."

DR. WM. H. THOMPSON (Ex-President New York Academy of Medicine) writes us:

"I have no hesitation in recommending your artificial Nauheim Salts."

DR. JAMES TYSON (Professor of Medicine, University of Pennsylvania) in his Practice of Medicine, 1903, speaking of valvular heart disease hypertrophy and dilatation, says:

"The Nauheim Treatment is especially useful; fortunately artificial baths may be substituted for the natural ones. Their therapeutic efficiency is undoubted. They are also useful in renal affections. The deep-seated organs are relieved of congestion, while the heart derives from its improved coronary circulation material for the repair of weakened tissue."

The preparation of an artificial Nauheim Bath, surcharging the water with carbon dioxide by adding to a tub of water a package of Triton Salts, is simple to the last degree. We shall be glad to send literature and manual of the Nauheim Treatment on request.

THREE JOURNALS IN ONE

And a 300-page book
of practice, for

25 cts.

The American Journal of Clinical Medicine

is very different from all other medical journals: First, because it places practical helpfulness for the doctor first; second, because it is "snappy" and entertaining, not a dull

article or mere "space filler" being admitted. Every line of it you can read and enjoy. The abstruse, technical and prosy "special articles" are conspicuous by their absence; and, third, because it is enthusiastically and optimistically therapeutic and thoroughly in earnest. It has helped thousands and it can help, or, at least, encourage and entertain you.

"Clinical Medicine" is broad—not in any sense sectarian—welcoming free and untrammelled discussion of living subjects of daily interest to all live, earnest, practising physicians.

It is clean—a leader in the fight against quackery, vice and dishonesty in all their hydra-headed forms. It gives, not only sympathy but active help to every movement designed to make the doctor a better doctor, a better citizen and a better man.

It is big—not only in number of pages of printed matter (from 192 to 224 pages of pure reading matter each month, more than any other medical journal published) but in its conception of the rights of the doctor and in its efforts to support his rights and to meet his needs in the Departments of Medicine, Surgery, Gynecology and Obstetrics, Dermatology, Venereal Diseases, Foreign Gleanings, Clinical Experiences, etc., etc.

Just think of it—1,920 pages of thoroughly practical and helpful reading matter in 12 months—this and more too (see following proposition for \$1.00).

FOUR MONTHS TRIAL FOR TWENTY-FIVE CENTS

Doctor, we want you to see for yourself. Therefore we will send you "Clinical Medicine" for four months for TWENTY-FIVE CENTS, and include FREE a Pocket "Practice," Abbott's Alkaloidal Digest, a 300-page crystallization of Active-Principle Therapeutics. It is a book every earnest doctor wants—can use daily. Then when you renew, sending one dollar, we will send the case.

We guarantee satisfaction—MONEY BACK IF NOT SATISFIED.

Make your remittance One Dollar and we will not only send you Clinical Medicine for One Year and the "Digest" Free as above, but in addition we will include, also FREE, a handsome, substantial 9-vial Pocket Case filled with 1000 adult doses of the most used alkaloidal remedies.

Fill in and Return This Order Blank With Your Remittance:

This is the biggest and best offer made to the medical profession and you will never regret taking advantage of it now. If you send twenty-five cents for four months, including the "Digest," you will receive the 9-vial case free when you renew your subscription for the year.

THE CLINIC PUBLISHING CO.,
Ravenswood Station, Chicago:

Please enter my subscription to The American Journal of Clinical Medicine and send me free Abbott's Alkaloidal Digest. I enclose Twenty-five Cents for Four Months (or I enclose One Dollar for One Year including "Digest" and "Pocket Case" as agreed).

Acetozone IN Typhoid Fever

WHAT CLINICAL TRIAL SHOWS:

1. Duration of the disease is cut short.
2. The most marked and disagreeable symptoms are ameliorated.
3. Temperature is reduced.
4. Delirium is terminated or much abated.
5. Tympanites is almost wholly avoided.
6. Diarrhea is checked.

Acetozone is a remarkable antiseptic—powerful, in that it is capable of destroying any disease germ with which it can be brought into contact; safe, in that it may be taken internally, in aqueous solution, in quantities limited only by the capacity of the patient to swallow and absorb it.

Supplied in ounce, ½-ounce and ¼-ounce bottles; also in vials of 15 grains, six vials in a box.

Full Literature Sent Free on Request.

FOR DIAGNOSIS OF TYPHOID FEVER

Our **Typhoid Agglutometer** simplifies the Widal test, obviating the use of the microscope and the fresh live culture of typhoid bacilli. It is fully equal to the former method in delicacy and accuracy, and much superior in convenience.

The apparatus consists of four tubes of a sterile permanent suspension of dead typhoid bacilli, a tube of blood-serum diluent, an empty tube for collecting the blood, a needle for puncture, and a pipette for withdrawing the separated serum. It contains material for fifteen to thirty tests.

ANNOUNCEMENT

When we originated *sterilized, unsweetened, condensed milk* our product was named "EVAPORATED CREAM"—a term descriptive of its creamy consistency and color, and adopted for the purposes of distinguishing it from the older sweetened preparation (a mixture of milk and sugar cane) which had become known as "CONDENSED MILK."

In food substance our product is richer than "dairy cream," and may be used in place of ordinary cream; furthermore, since it is a FORM OF CREAM obtained by a process of evaporation, the name "Evaporated Cream," always accompanied by a correct description of the article on labels and in advertising, seemed to us quite appropriate.

The National Pure Food Law, which becomes effective January 1, 1907, carries a clause preventing the sale of any article, EXCEPTING MIXTURES AND COMPOUNDS, under a distinctive name. As our product is neither a compound nor a mixture, such as "Condensed Milk," "Malted Milk," "Ice Cream," etc., our distinctive name, "Evaporated Cream," is ruled out.

Appreciating the benefit which will accrue to the public from the Pure Food Law by giving protection against fraudulent products, we cheerfully accept the above ruling and shall in the future sell our product under the simple name of "EVAPORATED MILK." The product will remain unchanged, and will continue to be a safe, uniform and satisfactory substitute food for infants.

In Summer Complaints

THINK OF

ALKARHEIN OF USE IN INDIGESTION

OF COURSE IT WILL NOT CURE ALL CASES OF DYSPEPSIA, BUT IT WILL BE SURPRISING HOW USEFUL IT WILL PROVE IN SO MANY DERANGEMENTS OF THE GASTRO-INTESTINAL TRACT.

COMPOSITION—WITH PHYSIOLOGICAL ACTION.

Rhubarb 2½ Grains	A superior laxative because it does not impair but improves the digestion—Is a tonic, also astringent.
Golden Seal 1 1-4 Grains	(With the acrid resin removed)—The great tonic and corrector of the mucous surfaces.
Potassium Bicarbonate 2½ Grains	Antacid. Increases Alkalinity of the blood and the oxidation and excretion of effete matters.
Pancreatin 1 Grain	Promotes intestinal digestion, converts starch into sugar and dextrose; proteids into peptones; emulsifies fats, digests the casein of milk.
Ceylon Cinnamon 1 1-4 Grains	Valuable in atonic conditions of the intestinal mucous membranes, with flatulence and diarrhea.
Spirit of Peppermint	and a minimum of Simple Elixir is a menstruum that will commend itself to physicians.

Think of Alkarhein in acid dyspepsias, flatulent colic, infantile colic, cholera infantum, cholera morbus, diarrhea and all abnormal acid conditions of the alimentary tract. Think of Alkarhein in these cases and prescribe it as thousands of physicians have been doing for many years with the confidence born of experience.

New York, N. Y., 10 St. Peter St.

Cystogen-Lithia

An effervescent tablet of Cystogen (C₆H₁₂N₆)
3 grains and Lithium Tartrate 3 grains.
Uric acid solvent and alkaline urinary
antiseptic.

DOSE—One or two tablets in a glass of water,
three or four times daily.

The idea of this combination was given us by observing the large number of physicians using CYSTOGEN with LITHIA in gouty and allied affections.

**Where Cystogen is indicated, Lithia is of advantage;
Where Lithia is prescribed, Cystogen is indicated.**

INDICATIONS—Rheumatism, gout, urinary deposits, calculi, cystitis, prostatitis and gonorrhoea. A good urinary antiseptic during convalescence from typhoid and similar fevers.

CYSTOGEN PREPARATIONS:

Cystogen—Crystalline Powder.
Cystogen—5 grain Tablets.

Cystogen-Lithia (Effervescent Tablets).
Cystogen-Aperient (Granular Effervescent Salt
with Sodium Phosphate).

Samples on request.

CYSTOGEN CHEMICAL CO., St. Louis, U. S. A.

A. M. A. Principles of Ethics.

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

TRI-IODIDES (HENRY'S) Liquor salii-iodides.

Colchicin, 1-20 grain. Phytolaccin 1-10 grain. Solanin, 1-3 grain. Soda Salicylate, 10 grains. Iodic Acid, equal to 7-32 grains iodine. Aromatic Cordial. Dose 1 to 2 drams in water. 8-oz. bottle, \$1.00.

A powerful alterative and resolvent and hepatic stimulant, and succedaneum to the iodides. Indicated in all conditions dependent upon perverted tissue metabolism; in lymphatic engorgements and functional visceral disturbances; in lingering rheumatic pains which are "worse at night." Bone, periosteal and visceral symptoms of late syphilis; for the removal of all inflammatory, plastic and gouty deposits.

A remedy in sciatica, megrim, lumbago and muscular pains; the gouty and rheumatic diathesis; acute and chronic rheumatism and gout; chronic eczema and psoriasis, and all dermic disorders in which there is underlying blood taint.

An hepatic stimulant increasing the quantity and fluidity of the bile. Relieves hepatic and intestinal torpor; does not cause the unpleasant gastric symptoms of potassium iodide.

THREE CHLORIDES (HENRY'S) Liquor Ferrisenic.

Each drachm contains Proto-Chlor. Iron, 1-8 gr.; Bi-Chlor. Mercury, 1-128 gr.; Chloride Arsenic, 1-280 gr.; Calsaya Cordial. Dose, 1 to 2 drachms. 12-oz. bottle, \$1.00.

An oxygen-carrying ferruginous preparation, suitable for prolonged treatment of children, adults and the aged. Indicated in anemia and bodily weakness, convalescence from acute diseases and surgical operations; boys and girls at the age of puberty, and the climacteric period in women. In children with chorea, rickets, or who are backward in development, or in whom there exists an aversion to meats and fats. Prolonged administration never causes "iron headache."

As an adjuvant for potassium iodide the undesirable manifestations known as iodism can be removed. Stimulant to the peptic and hydrochloric glandular system of the stomach, especially serviceable in the impaired appetite, nausea, vomiting and other gastric symptoms of alcoholic subjects.

MAIZO-LITHIUM (HENRY'S) Liquor Lithium Maizenate.

Nascent Chemic Union of Malzevic Acid—from Green Corn Silk—with Lithium, forming Maizenate-Lithium. Two grains to drachm. Dose, 1 to 2 drachms. 8-oz. bottle, \$1.00.

A genito-urinary sedative, an active diuretic; solvent and flush indicated for the relief and prevention of renal colic; a sedative in the acute stages of gonorrhoea, cystitis and epididymitis; in dropsical effusions due to enfeebled heart or renal diseases. As a solvent in the varied manifestations of gout, goutiness and neurotic lithemia, periodical migrainous headache, epigastric oppression, cardiac palpitation, irregular, weak or intermittent pulse; irritability, moodiness, insomnia and other nervous symptoms of uric-acidemia. Decidedly better, more economical, extensive in action and definite in results than mineral waters.

Those cases of irritable heart, irregular or intermittent pulse so frequently met with by insurance examiners and found to be due to excess of uric acid, are special indication for Maizo-Lithium.

What ESKAY'S FOOD

did in 13
months for
Catherine
Hudson

7 MONTHS WEIGHT 6 1/4 LBS.

ESKAY'S FOOD brought Catherine Hudson, of Corydon, Ind., from the emaciated condition, shown in the top picture, to the splendidly nourished, healthy and happy condition, shown in the bottom picture, in the short period of 13 months.

ESKAY'S FOOD is a convenient and economical modifier of cows' milk. It breaks up the tough masses of casein, rendering them flocculent like mothers' milk. It also supplies the lact-albumin.

Samples and clinical reports sent upon request by the manufacturers.

TULARE, - - CALIFORNIA

The Hospital of the Good Samaritan

ESTABLISHED 1887.

934 WEST SEVENTH STREET, LOS ANGELES, CAL.

The Hospital of the Good Samaritan is an institution of 100 beds for patients, a diocesan hospital owned and managed by the Episcopal church in Southern California, but undenominational in its benefits, being a general hospital for the reception of patients, irrespective of nationality or creed. The hospital does not have an attending staff and is open to all reputable physicians, especial effort being made to serve the profession as a whole. The hospital has a house pathologist, and furnishes all laboratory work free to those in moderate circumstances.

FOOD AND DIET.

The hospital is provided with a main kitchen and five diet kitchens, equipped with steam cooking utensils. All dishes used in the hospital are sterilized after each meal. The hospital controls a private dairy ranch, insuring patients the purest milk and farm products. The drinking water is passed through Pasteur filters and then sterilized under high pressure.

OPERATING ROOMS.

These rooms are four in number, and used for different purposes. The main operating pavilion, of six rooms, is considered most modern and complete.

OBSTETRICAL DEPARTMENT.

This department consists of a confinement, an operating, and a sterilizing room and a nursery with incubator.

CHILDREN'S DEPARTMENT.

This is especially equipped for Orthopedic Surgery, having an X-Ray room, plaster room, electricity and massage rooms and gymnasium; also a sun room for the administration of Violet rays in tubercular joint disease.

THE HOSPITAL SIGNAL AND TELEPHONE SYSTEM.

This system has been installed throughout the building.

PROVISION FOR ALL CLASSES.

There are elegant suites and apartments, with private baths and telephones, for those who desire luxurious accommodations, and the hospital is also prepared to take care of those in moderate circumstances.

TRAINING SCHOOL FOR NURSES.

This school gives a three years' graded course. The work of each year consists of eighty didactic lectures, on ten different branches, by physicians and surgeons; fifty classroom instructions, given by the superintendent and Head Nurses of the various departments, including practical work in cooking, massage, electricity and medical gymnastics, and general medical and surgical duty, special duty, operating room service, service in the children's department and in the obstetrical department.

A. M. A. Principles of Ethics.

A. N. Drown, Vice-President

C. R. Gleason, M. D., Resident Physician

Sidney M. Van Wyck, Jr., Secretary

Ven. John A. Emery, Treas. and Mgr.

Rev. Jerome F. Trivett, Superintendent.

This hospital is situated in a healthy part of the city. It has been thoroughly renovated, new plumbing and sewerage, newly painted throughout, and is in most excellent sanitary condition. Special attention given to the cooking and serving of food. Rates—Bed in ward, \$12 per week. Private rooms from \$14 to \$40, according to size and location, including board, medicines, nursing, etc. Physicians can attend their own patients without fear of interference, and every professional courtesy will be extended. New operating room with complete equipment.

Visiting Staff: Herbert C. Moffit, M. D.; George H. Evans, M. D.; Clark J. Burnham, M. D., Physicians; C. G. Kenyon, M. D., Harry M. Sherman, M. D., L. W. Allen, M. D., Surgeons; C. A. DR. PETTEY'S RETREATS

Devoted Exclusively to the Treatment of

ALCOHOL AND DRUG ADDICTIONS

958 DAVIE AVE., MEMPHIS, TENN. 1939 EAST EVANS AVE., DENVER, COLO.
1849 DWINELL STREET, OAKLAND, CALIFORNIA.

These Institutions are owned and controlled by reputable physicians, and are conducted upon strictly ethical lines. They were opened and are maintained solely for the purpose of treating the Alcohol and Narcotic Drug Addictions by methods based upon the original investigations of Dr. Geo. E. Pettey of Memphis, Tenn., and first published to the profession by him in 1901. (See Therapeutic Gazette, Oct. 1901.)

The method of treatment introduced by Dr. Pettey removes these addictions from the list of almost incurable diseases and renders them the most certainly and readily curable of all the chronic ailments. For Terms, Address Retreat Most Convenient to You.

MISS LOUISE A. MOORE Ph. B., Graduate Nurse, Superintendent.

A. M. A. Principles of Ethics.

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

THE California Hospital

LOS ANGELES

A DELIGHTFUL HOME FOR THE SICK AND CONVALESCENT.

The California Hospital is one of the unique establishments of America. With over one hundred and seventy-five rooms, five operating rooms, delightful roof gardens and verandas, spacious grounds dotted with semi-tropical trees and plants, with a corps of nearly one hundred nurses, and with the most nourishing, palatable and healthful food prepared by a first-class chef, it combines all of the necessary attributes of a hospital with the comforts of a first-class modern hotel. Particular personal attention will be given to physicians and members of their families.

Address Medical Director, California Hospital, 1414 South Hope Street, LOS ANGELES, CAL.

CLARK'S Sanitarium

For the care and treatment of
Mental and Nervous Disorders
of Morphine and Alcoholic Habits,
was established by Dr. Asa Clark,
Medical Superintendent of the California State Hospital at Stockton.

For further information DR. F. P. CLARK, Medical Supt., or J. M. ANDERSON, Business Manager. P. O. Box 297. Phone 231 Green Stockton, Cal.

A. M. A. Principles of Ethics.

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

To aid the kidney in its work of eliminating the poisons from
the blood is the action of

The vital substance or grains of segregation of the cells of the cortex of the kidney and its convoluted tubules.

Should be tried in every case of Bright's and other forms of Nephritis.

Contains none of the renal connective tissue and is not a dried extract or desiccated kidney, but a true physiological product, consequently can be used in every case without injury.

Translation of Renaut's remarkable scientific article on the renal function is now ready and will be sent with samples of Nephritin upon request.

Reed & Carnrick,

42-44-46 Germania Ave., JERSEY CITY, N. J.

**Gouty and
Rheumatic
MANIFESTATIONS**

Yield to

COLCHI-SAL

The base of each 4
Colchi-Sal is $\frac{1}{4}$ mil.
dissolved in natural

minum capsule of
igram of colchicine,
methyl salicylate.

LOCAL PAIN RELIEVED
By
